

Obdelava zaslonske slike

Obdelava podatkov iz osciloskopa

V kolikor so vsi podatki zapisani v enem stolpcu:

1. Izberite stolpec v katerem so zapisani podatki

2. Podatki -> besedilo v stolpce

3. Izberite ločilo s katerim so posamezni podatki ločeni med seboj (pika, vejica, presledek itd.) in sledite korakom

The Text Wizard has determined that your data is Delimited.

If this is correct, choose Next.

Original data type

Choose the file type that best describes your data

☒ Delimited - Characters
☐ Fixed width - Fields
